∴ D.F.C. L.G. 11.7.1941.

*Flying Officer Anthony Watson (41339) No. 203 Squadron. "In May, 1941, this officer was the pilot of one of two aircraft which carried out an attack on the fort at Rutbah and enemy ground forces in the neighbourhood. Both aircraft made determined attacks on the fort in the face of heavy fire from the ground which was eventually silenced. Following an attack by his fellow pilot on some armed forces behind a hill, Flying Officer Watson's attention was drawn to a column of black smoke on the ground. Although his aircraft had been hit in the petrol tank and fuselage he immediately dived towards the position and a moment later saw his fellow pilot, who had apparently been shot down, emerge from the smoke. Turning into wind and without waiting to apply the flap Flying Officer Watson landed his aircraft less than 20 yards from the burning*

wreckage and, together with his air gunner and observer, rescued his comrade. In spite of fire from enemy armoured cars and bullets exploding from the burning aircraft, they attempted to find the remaining members of the crew. Failing to find any sign of them, they returned and took off with the rescued pilot. Throughout, Flying Officer Watson displayed great courage and skill as both landing and take-off were made under fire and on ground strewn with rocks and boulders.

D.S.O. 4.12.1942.

Acting Squadron Leader Anthony Watson, D.F.C. (41339) No. 272 Squadron (since missing). One day in November 1942 this officer led a formation of aircraft on a low level attack on the airfield at El Aghela where at least 12 enemy aircraft were destroyed on the ground and many other damaged. During a patrol the next day, a Heinkel 115 was destroyed. On the third consecutive day, the squadron was detailed to attack an airfield in Tunisia. En route a formation of six S.M.82's was intercepted. In then ensuing engagement all the enemy aircraft were shot down; Squadron Leader Watson destroyed three of them himself. This officer has led the squadron on shipping sweeps and convoy escorts and in numerous low level attacks on enemy aerodromes, during which many enemy aircraft, vehicles and E boats have been destroyed or damaged. By his high skill, courageous and inspiring leadership Squadron Leader Watson has contributed materially to the splendid successes achieved. He has destroyed 11 enemy aircraft as well as a schooner.

∴ Extract from "History of 16th Lancers"—Col. H. Graham:  
*"The losses in this short, but fiercely contested combat were considerable, for nine officers and 65 men were killed and 85 officers and men were wounded, while the enemy, who numbered 8,000 left 800 dead alone in and in front of the square. The officers killed were Col. Burnaby, Major Carmichael (5th Lancers), Major Atherton (5th Dragoon Gds.), Major Gough (1st R. Dragoons), Capt. Darley (4th Dragoon Gds.), Lieut. Wolfe (Scots Greys), and Lieut. Piggott and De Lisle (R. Navy). Lord St. Vincent, of the 16th was very severely wounded and would have been killed on the spot but for the courage and promptitude of Pte. W. C. Illsley. Lord St. Vincent was shot through the thigh early in the action, and had been placed in a cacolet on a camel. When the enemy broke into the square the camel was speared and killed, but Illsley stood over the body and kept the Arabs off, killing nine with his bayonet. After attending to the wounded the square resumed the march and at 5p.m. halted at the wells, which were taken possession of without further opposition. The following morning the 18th the troops were brought up from the zeriba, with the baggage, and a small fortification having been constructed at the wells, part of the laden camels and the wounded were left there with the Sussex men".*

*Pte. Illsley received the D.S.M. for this action, but otherwise got but scanty reward being discharged after 28 years good service with three medals on a pension of 7½d. per day.*

## SALE CATALOGUES

On the average we issue twelve or more Coin Catalogues and three Naval & Military Medal Catalogues each year, some of which are usually of Sales of important Collections.

### CATALOGUE SUBSCRIPTIONS

**Sale Catalogues**, frequently illustrated, are normally posted to Subscribers about three weeks prior to the date of Sale.

**Lists of "Prices Realised"** are issued after each Sale, thus giving at a glance a reliable guide to value. The final test of value must always be auction prices rather than the figures given in books of reference, for changing times and fashions soon render the latter obsolete and misleading. The Lists of "Prices Realised" will probably be enclosed in a following Sale Catalogue.

### AIR MAIL POSTAGE

To allow subscribers resident outside Europe time to submit Postal Bids, Sale Catalogues will, if desired, be sent by Air Mail. Air Mail postage is not, however, included in the Subscription Rate and the cost must be borne by the Subscriber. In such cases a deposit against the cost is required.

### ANNUAL SUBSCRIPTION RATES
